*Chemical product for leather*

## **SOGRAUX X-201**

Chemical nature:	Water dispersion of polymers, oils and filling agents
Appearance:	Whitish paste
Solids content:	24 ± 1 %
pH:	7,5 – 9,5
Ionicity:	Lightly cationic

### **Applicazioni**

X-201 è uno stucco appositamente studiato per poter recuperare pelli particolarmente difettate, destinate ad articoli rullabili o lissabili e nappa.  
Può essere utilizzato a spatola, tampone o nelle applicazioni roller.

### **Main applications**

X-201 is a sealing agent particularly studied for the upgrading of very defected leathers and skins , for articles to be polished and glazed and nappa.  
It can be used by spatula, hand padding or roller coater.
