Chemical product for leather

SOGRAUX X-MT/POL

Chemical nature:	Water dispersion of polymers, oils and filling agents
Appearance:	Whitish paste
Solids content:	23 ± 1 %
Ph:	7,5 – 9,5
Ionicity:	Lightly cationic

Applicazioni

X-MT/POL è uno stucco appositamente studiato per poter recuperare pelli particolarmente difettate, destinate ad articoli rullabili o lissabili e nappa.
Può essere utilizzato a spatola, tampone o nelle applicazioni roller.

Main applications

X-MT/POL is a sealing agent particularly studied for the upgrading of very defected leathers and skins , for articles to be polished and glazed and nappa.
It can be used by spatula, hand padding or roller coater.
