Chemical product for leather

SOGRAUX X-102

Chemical nature:	Modified polydimethiloxane
Appearance:	Clear liquid
Solids content:	50 ± 1 %
pH:	5,5 – 7,5
Ionicity :	Non-ionic

Applicazioni

X-102 è un ottimo livellante selezionato per la notevole capacità di distendere le vernicette in fase acquosa su basi particolarmente chiuse quali fondi per abrasivato.

Main applications

X-102 is an excellent levelling agent with outstanding spreading features on water-borne top coats, especially on particularly closed surfaces, such as bottom coat prepared for brush-off articles.
